---

## Objective

Motivated and detail-oriented recent Computer Science graduate seeking a software development position where I can apply my strong programming skills, problem-solving mindset, and passion for clean, efficient code to contribute to innovative projects and continue professional growth.

---

## Education

Metropolitan State University — St. Paul, MN

Bachelor of Science in Computer Science

*Graduated: May 2025*

- GPA: 3.78/4.0
  - Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Systems, Operating Systems, Web Application Development, Artificial Intelligence
  - Capstone Project: *Campus Connect* — a full-stack web app that helps students find study groups and campus events (React, Node.js, Express, MongoDB)
- 

## Technical Skills

Programming Languages: Python, Java, C++, JavaScript, SQL, HTML, CSS

Frameworks & Tools: React, Node.js, Express, Flask, Git/GitHub, Docker, AWS (EC2, S3)

Databases: MySQL, MongoDB, PostgreSQL

Other Skills: Agile development, RESTful APIs, Version control, UI/UX design principles

---

## Projects

### Personal Finance Tracker

*Python, Flask, SQLite, Chart.js*

- Built a web application to help users visualize spending patterns with interactive dashboards.
- Implemented secure user authentication and encrypted data storage.

### MN Park Finder

*React, Node.js, Google Maps API*

- Created a mobile-friendly app for locating local parks and trails in Minnesota.
  - Integrated real-time geolocation and filtering by amenities.
- 

## Experience

### Software Development Intern — *CodeForge Technologies*, Minneapolis, MN

*June 2024 – August 2024*

- Assisted in developing internal tools for automating data entry using Python and SQL.
- Collaborated with a team of developers using Agile sprints and Git for version control.
- Reduced manual reporting time by 35% through process automation scripts.

### IT Help Desk Assistant — *Metropolitan State University*

*September 2023 – May 2024*

- Provided technical support to students and faculty on hardware, software, and network issues.
  - Documented troubleshooting procedures and created a digital knowledge base for common issues.
-

## **Awards & Activities**

- **Dean's List (2022–2025)**
- **Member, Association for Computing Machinery (ACM)**
- **Hackathon Participant — Twin Cities CodeFest 2024 (Top 10 Finalist)**
- **Volunteer, Girls Who Code Minneapolis Chapter**
